

# Topics covered per knowledge unit

AL

Basic Analysis

2

11

100

100

Algorithmic Strategies

8

100

100

Fundamental Data Structures and Algorithms

10

100

100

Basic Automata Computability and Complexity

5

100

67

AR

Digital Logic and Digital Systems

4

67

Machine Level Representation of Data

6

100

Assembly Level Machine Organization

11

100

Memory System Organization and Architecture

9

67

Interfacing and Communication

4

57
