Legend

- Computer Science (core)
- Computer Science (projects)
- Electrical engineering(?)
- Mathematics
- Physics
- "TMS"

Semester 1

Discrete mathematics	Programming
Linear algebra	Introductory project
Calculus 1 / Databases / Object-oriented programming	
Mechanics	Concurrent programming

Semester 2

Applied probability and statistics	Electricity and magnetism
Technical communication / Calculus 2	Software engineering project
Sustainable development / Algorithms	
Multivariable and vector calculus	Computer organization

Semester 3

Numerical methods	Software architecture	Embedded systems
Automatic control	Computer Graphics	Computer networks
Industrial economy	Scientific methods	Security
Bachelor's thesis
